

Bridging Business, Community, and Education

Combining Pathways for the Future Workforce

Who

Spyder3D® partners with SoCal schools and after-school programs to prepare a new generation of skilled entrepreneurs and graphic media leaders by connecting students to hands-on career exploration opportunities in business, manufacturing, and design.

We guide educators, students, and mentors through an entrepreneurial journey, engaging creativity, collaboration, communication, and critical thinking.

Our participants gain valuable lessons in business, accounting, graphic media, marketing, leadership, and teamwork that they'll carry with them for the rest of their lives.

How

By utilizing our all-in-one graphic media production studio, the

Spyder Lab™

It offers limitless possibilities for creation, education, and profitability, with capabilities including:

Custom Apparel	Laser Engraver	3D Printing	Printer Cutter
<ul style="list-style-type: none"> •Direct-to-garment printing •Multi-material heat transfers 	<ul style="list-style-type: none"> •Etched photos •Custom drinkware •Awards/plaques •Phone cases 	<ul style="list-style-type: none"> •Prototypes •Tools •Original creations •Educational models 	<ul style="list-style-type: none"> •Banners •Stickers •Posters •Large photo prints

Industry Certifications

Experienced participants that follow through with the Spyder Lab program will be able to test their knowledge in both machinery and software and obtain their official Spyder3D® mastery certifications.
